

CompTIA PenTest+

Duration: 40Hrs

Training Method: Online / Offline

COURSE MODULES

Nowadays, it is our ill fate that this is a time of worldwide hacking activities going on to seize the sensitive sorts of databases of many crucial Government and Non-Government websites that hold a lot of user information in their datasets. Hence, we need a quality workforce to work with the permanent staff of many organizations hailing from diverse backgrounds so that their security parameters can remain secured from severe cyber attacks. In this regard, the invaluable CompTIA PenTest+ Certification Training works as a boon for having a soulful information security course from the house of CompTIA Technologies, as Craw Security is one of the prime partners of CompTIA for imparting its world-class certifications at very competitive rates.

In the primetime facility of Craw Security in Singapore, many diversely trained and experienced faculty members are provided so that our learners train at a different level and develop a keen sense of understanding the distinguished knowledge quotient related to the fundamentals of CompTIA PenTest+ Course & Certification in Singapore.
